## **WELCOME**

Georgia State University Department of Recreational Services offers a wide variety of recreational, sport, and fitness activities. We encourage you to visit our web site [recreation.gsu.edu](http://recreation.gsu.edu) for the current semester program offerings.

Exercising may cause conditions such as dizziness, light-headedness, disorientation, exhaustion or other signs/symptoms that put the exerciser at risk. If you experience any of these signs/symptoms, you should cease exercising immediately and contact a Recreational Services staff member.

## **MISSION STATEMENT**

The Department of Recreational Services promotes healthy life-styles through exceptional recreational programs, services, and facilities.

## **VISION STATEMENT**

The Department of Recreational Services will be the leader in recreational programs among urban universities serving a diverse student body.

## **HISTORY**

Former University President Carl V. Patton appointed a task force in the spring of 1994 to investigate the feasibility of building a student recreation center at Georgia State University. The students, faculty and staff members of the task force spent the spring and summer soliciting information from other universities about the impact, magnitude, costs, and contents of such centers. The group focused on urban university comparisons. They collected floor plans, photos, statistics, and fee information. The combination of their hard work and dedication played a significant role in planning the facility and establishing its policies. Student employees serve in a variety of capacities. A full-time professional staff supervises all recreation programs, services, and facilities.
